Dear Mr. Secretary General,

Re: ***Applications for the renewal of the broadcasting licences for English-language conventional and multilingual ethnic television stations and for certain specialty television services, Broadcasting Notice of Consultation 2014-26 (Ottawa, 29 January 2014)***

- 1 The Forum for Research and Policy in Communications (FRPC) appreciates the decision by the CRTC panel hearing the OMNI television licence renewal applications to grant FRPC's 21 March 2014 request to present additional evidence for the public record, drawn from OMNI television station program logs submitted to the CRTC pursuant to the *Television Broadcasting Regulations, 1987 (Television Regulations)*
- 2 Section 10(3) of the *Television Regulations* requires television licensees to submit these logs to the CRTC with "a certificate signed by or on behalf of the licensee attesting to the accuracy of the contents of the log". In September 2013 the CRTC reminded television licensees that their logs must "at all times ... be accurate, complete and corrected immediately when errors arise": *New procedures related to the evaluation of television program logs*, Broadcasting Information Bulletin 2013-515, (Ottawa, 26 September 2013), at paragraph 3.
- 3 The evidence is attached, and consists of statistics calculated from the information contained in the OMNI program logs.

Sincerely yours,

A handwritten signature in blue ink that reads 'Monica Auer'.
